SATURDAY, MAY 26, 1906.

Two beautiful bronze tablets, containing the names of more than 500 students of the University of Virginia who died for the lost cause, were unveiled at the University on Wednesday with appropriate ceremonies. President Alderman in accepting the tablets, said:

"No more precious gift has ever come to the University of Virginia. The tears quickly mount to the eye at the thought of these gallant young spirits passing from this heaven of youth and opportunity to the ways of suffering and death but these tears are wiped away by the revelation of God's goodness, in thus leading them to the mountain tops of honor and glorious service. For let it be remembered by the endless procession of youth who shall gaze with awe upon these names, that in life they knew and were ruled by the highest emotions, and in death they teach the highest lesson, the very root matter of all our wisdom—the lesson of duty and of service. And their pupils are those who, like unto themselves, are 'the roses and the fair expectancy of the State.'"

When it comes to anything "free" most of us like to get our share of it, and as free seeds are the only subsidy the planter of the South, or the farmer of the North, get from Uncle Sam, Congress has determined to continue the distribution. But what a price the recipients pay for their 5 cents worth of seeds, for the same system on a much greater scale allows the trusts and combines to receive enormous subsidies through the protective tariff and other special privileges. All these subsidies from the government, petty and great, are paid from the taxes collected from the people and the farmers pay, on the average, \$100 for the 5 cents, they receive, for in addition to their share of the taxes, the subsidized trusts, protected by the tariff, add to the price they charge for their products so that the cost of living has advanced about 40 per cent.

Hon. William J. Bryan has been endorsed for President by the Democratic Judicial Convention of sixteen counties of Northern Ohio. The resolutions, which were adopted, declare that Bryan had been re-nominated and elected in 1904 had the trusts not stolen the nomination from him, and that the National democracy will nominate him in 1908 by acclamation. A majority of the Democrats are doubtless in accord with the Ohioans in the matter and free silver being no longer an issue Mr. Bryan, backed by all of the Democrats of the country and many of the independent Republicans, would be the strongest candidate that could be nominated by his party. Mr. Bryan in a recent letter indicated his willingness to be again the standard bearer of the democracy of the country.

The Roosevelt Administration will soon come to be known as the great compromisers, for in addition to compromising on the railroad rate bill and trying to compromise on the statehood bill it is now proposed by Secretary Taft to compromise with the Senate on the Philippine tariff bill, by raising the rate of duties to 50 per cent. of the regular rates instead of 25 per cent. Can anyone give a fair reason why the people of the Philippines should be taxed 50 per cent., and the Porto Ricans and Hawaiians have free trade with the United States, except that the tobacco trust and the sugar trust and the rice trust say so?

The Board of Fisheries at its late meeting reached the conclusion, that the oyster laws of the State can't be enforced by police boats and will have a land police force to co-operate with the water force. In the opinion of the Board it will be much easier "to come up on pirates from the land than from the water" and three men have been selected from three districts, respectively, clothed with all of the police authority possessed by the captains of steamers to watch the offenders and bring them to justice. The new system will go into effect as soon as the money can be secured to provide salaries for the new officers.

The death of Mrs. Jefferson Davis is probably not very far distant. According to the latest advices she has had another relapse, the third during her present illness, and at her old age each of course weakens her and lessens her prospect of recovery.

Governor Swanson Tuesday issued an order requiring all the State educational and charitable institutions to make quarterly reports to him as to the management, conditions, operations, expenses and recommendations. This has never before been done in the history of the State.

There are eight applicants asking Governor Swanson for the position of State highway commissioner, shortly to be filled. The place pays \$3,000 per year, and the new officer goes in on July 1st, 1906.

The statue of Gov. William Smith will be unveiled on the Capitol Square, at Richmond, Va., Wednesday, May 30th.

Koerner is Off for European Trip.

Richmond, Va., May 23.—George W. Koerner, commissioner of agriculture, left last night for New York, whence he will sail to-morrow morning for Europe, where he will investigate the farming and labor conditions and arrange for immigration labor for the Virginia farmer.

Mr. Koerner will visit all the countries of northern Europe, making a thorough study of the conditions of the farming elements. He will point out to them the advantages afforded by Virginia, and arrange transportation for those whom he can induce to join in their lot with the Virginia people.

He will remain away all the summer, returning some time during the month of September. The labor which Mr. Koerner will attempt to bring into the state is to supercede the unsatisfactory negro labor.

At the recent session of the state legislature money was appropriated for the purpose of the commissioner.

Plan For Virginia Building.

Norfolk, Va., May 23.—After spending all of the afternoon in looking over plans submitted by a dozen or more architects for Virginia's building at the Jamestown Exposition, the State commissioners to the exposition tonight accepted the plans submitted by Messrs. Breeze & Mitchell, of this city. The building will be a brick Colonial in design and will cost \$25,000. It will have a 116-foot frontage on the water, including piazzas, two stories and an attic in height. The first floor will contain two large reception rooms, a very large hall and corridors, the Governor's suite and the lady commissioners' suite. There will be seven ball rooms and two bath-rooms on the second floor. The building, the commissioners think, will be an exceedingly pretty one and it will be a permanent structure.

The building committee of the commissioners were ordered to proceed at once with the construction of the building.

Montague Will Be Pan-American Delegate.

Richmond, Va., May 21.—Former Governor Andrew Jackson Montague has accepted the appointment as delegate to the third international conference of Pan-American states, which is to be held this summer in Rio de Janeiro, in Brazil, and will spend his vacation from Richmond College in South America. He will return in September.

The convention to which Mr. Montague has been appointed consists of some of the strongest men in the United States, and is composed of the following: Elihu Root, representative of the administration; Dr. Edward J. James, president of the University of Illinois; William J. Buchanan, (chairman), Julia Larrinaga, Porto Rico; Charles R. Dean, of the state department; James S. Harlan, of Chicago; Dr. L. S. Rowe, University of Pennsylvania; A. J. Montague, of Virginia; and Paul S. Reisch, of Wisconsin.

How to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by B. S. Ashby & Co., Accomac, All County Agencies.

Notice to Farmers

I have remodeled and greatly improved my barrel and it is a much better year. The little defects of last year have all been overcome and there cannot be anything but good results from the use of the barrel this year. I will guarantee that the sun and rain will not affect it. You can leave it in your field for months and it will remain in good condition as when put there. I am in position to fill your orders this year but I must ask that you give me your orders as far in advance as possible as you know it is impossible to serve all at one time. I thank you for your patronage and ask you for a continuance of same and those who have not used my barrel I ask you to give them a trial. JOHN W. TAYLOR, Hallwood, Va.
